### What last year’s participants are saying about WWP:

*“I’ve enjoyed getting to know the women in my group and being involved in my parish more than before.”*

*“Really enjoyed the interaction with others in my parish and getting to know others in this faith journey.”*

*“I think the most outstanding thing about this study is that the author makes it so readable and real. My heart is full each time I read a chapter. The Bible passages are easy to find and relevant to the discussion. It has been a refreshing, different approach to reading the Bible and using it to apply to everyday life. It has also given me a different perspective in growing further in love with Christ, Our Blessed Mother, and the Saints..”*
